1983396	<p>We are responding from an organisational perspective and our comments are informed by what people have told us from across Shropshire.</p> <p>The common concern is travel and transport and accessing not only emergency but also planned care. Impact will vary across the county and with personal circumstances.</p>	Neither agree nor disagree	<p>We are responding from an organisational perspective and our comments are informed by what people have told us from across Shropshire.</p> <p>Depending on their location and their personal circumstances the views on the preferred option differ: the south and west prefer option 1 but the north and east would be option 2.</p>	Neither agree nor disagree	<p>We are responding from an organisational perspective and our comments are informed by what people have told us from across Shropshire.</p> <p>Depending on their location and their personal circumstances the views on the preferred option differ: the south and west prefer option 1 but the north and east would be option 2.</p>	<p>We have fed back on the consultation process through out. The consultation processs has been comprehensive and pro-active and the team has responded to our concerns raised. We feel that the engagement has been far reaching and inclusive, raising awareness and giving the public opportunity to participate.</p>	<p>We would welocme a decision as early as possible as it affects other decision making and recruitment to the hospital trust which ever option is decided upon.</p>	<p>On behalf of an organisation (private or voluntary / charity)</p>	Healthwatch Shropshire
